In a nutshell.... I'm a Graphic Designer, Videographer, Web Designer, Social Media Manager and Creative Extraordinaire! As you may have already guessed, I am a quirky, well-versed individual who has a devout passion and respect for my craft, and of its (r)evolution. I have a diverse skills set, which has facilitated my involvement in some incredibly unique projects I am proud to have been a part of. My current employment has given me the privilege of working with creative alumni from international brands such as Google, Apple iTunes, UBER, Netflix, Deezer and many more. The exposure has opened my mind to the limitless realm of digital art and I want in!

Some of my Web Development include:

Tritech Technologies

Holding Company

www.tritechmedia.co.za

Stellr Technologies

Pre-paid Card Network & Systems
